## Selectman's Report

In preparing this years report, it was difficult not to recall the tragic events of September 2001. We give pause to reflect on the personal losses and the greater focus on community. With this in mind, we report on ways our town is focusing on securing a safe future

Over the years, we have added full time police, upgraded roads and equipment and improved buildings. The fire department, however, has maintained a strong base of volunteers focusing on the traditional role of protecting property. Unfortunately, we have been dependent on other Towns to supply manpower and equipment for rescue and emergency medical care in the event of a disaster or tragedy. The other Towns are increasingly reluctant to provide those services for those who do not have some capabilities in the rescue or EMS arena. The Town of Bristol may have overextended its ability to service the number of towns it has commitments. Last year, the City of Franklin abruptly ended services to the Town of Hill.

As a result, we recently trained our full and part-time police to be certified as an EMT's and they now carry some medical equipment in the cruiser. We had a donation of a heart defibrillator unit, which is carried in the cruiser. We have seven people partially or fully qualified as EMT's and interested in assisting the community. We are working with the Fire Department leadership to refocus the department goals to include rescue and medical help. We are attempting to build a regional model to work with the other towns on mutual aid in this area.

We have had a generous donation of \$135,000 for the purpose of purchasing a four-wheel drive rescue/ambulance vehicle. We have to raise \$35,000 for the balance of the costs including supplies. That is included in this year's budget.

Financially, the year 2001 was a good year for the Town. We ended with a surplus. As reported last year, it is becoming increasingly difficult to manage Town financial affairs, primarily due to the increased influence of outside factors. While we are one of the lowest tax rates in the state, we have seen a marked increase in operating costs, followed by a sudden decrease in anticipated revenues. It is difficult to avoid tax increases. Ambulance, energy, insurance, labor, solid waste and health insurance costs continue to rise. *The good news is we moved from being in the bottom 10 lowest tax rates in the State to the lowest 5 in the State!*

There is good news. We are in fine shape to weather many of the problems ahead. Our debt is very low. Our infrastructure is in superior shape. We will see long-term debt decline during 2002-2004. Outside forces, such as the state property tax, regulatory requirements, education costs (to mention a few) are a significant challenge.

There are no major warrant articles, however budgets are up to absorb the increase of ambulance, solid waste and health costs. We are planning a Spring newsletter which will bring you up to date on all these matters. Space will not allow the detail in this report. We will touch on these matters at the Town Meeting. I hope to see you there.

## TOWN WARRANT

## STATE OF NEW HAMPSHIRE

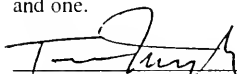

TO THE INHABITANTS OF THE TOWN OF BRIDGEWATER IN THE COUNTY OF GRAFTON  
IN SAID STATE, QUALIFIED TO VOTE IN TOWN AFFAIRS:

You are hereby notified to meet at the Town Hall in said Bridgewater on Tuesday, the twelfth day of March, 2002 next at twelve of the clock in the noon to act on the following subjects:

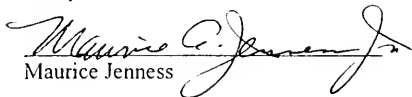

Polls to be opened from 12 Noon to 6:00 p.m.

1. To choose a Selectmen for three (3) years and all other necessary town officials.
2. To see if the Town will vote to raise and appropriate the sum of \$ 851,631 which represents the operational budget. Said sum does not include warrant articles. (Majority vote required.)
3. To see if the Town will vote to raise and appropriate the sum of \$ 7,000 for high band radios for the highway department. (Majority vote required.) Recommended by Selectman
4. To see what action the Town will take in regards to winter maintenance of private roads (RSA 231:59-a.)
5. To transact any other business that may legally come before the meeting.

Given under our hand and seals, this 20<sup>th</sup> day of February in the year of our Lord two thousand and one.

  
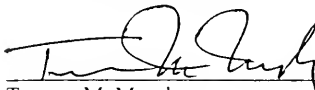

Terence M. Murphy

  
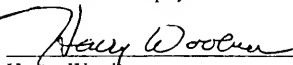

Henry Woolher

  
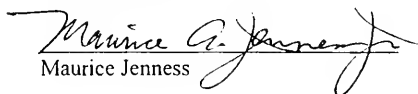

Maurice Jenness

Selectmen  
of  
Bridgewater

**PLODZIK & SANDERSON***Professional Association/Accountants & Auditors*193 North Main Street • Concord • New Hampshire • 03301-5063 • 603-225-6996 • FAX-224-1380*INDEPENDENT AUDITOR'S REPORT*

To the Members of the  
Board of Selectmen  
Town of Bridgewater  
Bridgewater, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Bridgewater as of and for the year ended December 31, 2001 as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general purpose financial statements referred to above do not include the general fixed assets account group which should be included in order to conform with accounting principles generally accepted in the United States of America. As is the case with most municipal entities in the State of New Hampshire, the Town of Bridgewater has not maintained historical cost records of its fixed assets. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Bridgewater as of December 31, 2001, and the results of its operations and the cash flows of its nonexpendable trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of the Town of Bridgewater taken as a whole. The combining and individual fund financial statements listed as schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Bridgewater. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

### Bridgewater Fire-Rescue-EMS Department

The year 2001 was a year of growth for the Fire Department that ended with change on the horizon. During the course of the year, the membership in the Department grew to a current roster of 24 members. I am pleased with this increase in membership as it improves our ability to respond to, and manage, the emergencies to which we are summoned. As a measure of our activity last year, we responded to 48 emergency calls. Additionally, various members are active in the area of permit inspection, life safety code inspection and fire education. Future growth in membership, of which I am hopeful, will only help us to better serve our citizens and, through Mutual Aid, surrounding Towns. In order to deal with the complexities of emergency service, I feel that Towns must approach this problem with a regional attitude of neighbor helping neighbor.

We ended the year with plans to start providing Emergency Medical Service (EMS) to the townspeople of Bridgewater. We have a number of individuals who have this interest and we have initiated a squad to provide direct EMS in support of the ambulances that serve our Town. If you have a medical emergency, you should start to see Bridgewater Fire-Rescue-EMS personnel arriving to provide immediate service. In support of this, we are scheduled to take delivery of a Rescue/Ambulance vehicle over the summer that will greatly enhance the ability of this new service and lend to the safety of our traditional activities. This vehicle has been funded, to a great degree, by a donation of a philanthropic organization who felt that this asset would enhance the quality of life in our Town. We thank them for their vision, generosity and genuine interest in our community and it's residents.

On a final note, we have been advised that the State of New Hampshire has enacted legislation that will end the practice of using "burn barrels" to dispose of household trash and refuse. The law to ban this practice will take effect in the year 2003 and we intend to enforce this law. It has been shown that this practice contributes significant levels of toxins and pollutants to the atmosphere, some of them quite dangerous. If you have had a permit to use a burn barrel in the past, I would encourage you to contact the Warden or Deputy Warden who has issued your permit in the past to discuss this change. Because of the seriousness of this problem, we will vigorously act to support these new statutes. We wish you a fire safe 2002

Andrew S. Denton, Fire Chief

## POLICE DEPARTMENT REPORT

First of all, I would like to say thank you to everyone for the warm welcome and cooperation I have received since coming to town last year. I am very impressed with the people and town officials in Bridgewater and I am very happy to be here.

In 2001, the police department received a slight increase in vandalism complaints and domestic disturbances. We have also had an increase of complaints from residents of people speeding and driving recklessly, especially on Dick Brown Road. I would like to remind everyone to be courteous to your neighbors and be safe when driving. We have increased our radar patrols and are out there enforcing the laws for everyone's safety.

It has increasingly become more difficult to get the state police to respond to town or arrive in a timely manner when a Bridgewater officer is not available for calls. We've responded to that concern in 2002 by having the part time officers on call more and available to respond to emergencies instead of relying as much on the state police.

Beginning in March 2002, the police department will have an additional office at the River road town office building. The office space was already in place upstairs and was being used for storage. That space is now being utilized as an extra place for us to do paperwork, interview people and work on cases. We are there regularly on Tuesday nights during town clerk and library hours, so feel free to stop by and see the new office.

I am happy to also report that we have been working with the fire department to increase a level of public safety response for the town. We are working on having all police officers become medical and fire certified. We are currently responding to all fire and medical emergencies, and we are outfitted with medical response gear, including a new automatic defibrillator donated by a local resident last year. It just makes sense in today's world to pool our resources and be able to help people in all types of emergencies. A lot of our time and work goes into this goal and I would like to thank the other officers, fire department members, and highway department members for their efforts.

I'd like to thank all of the Bridgewater police officers for their hard work and devotion. They have made the department's transition between police chiefs a smooth and easy process. We all work hard together to give the best possible services for your tax dollars.

Thank you all for your support. Feel free to stop and say hello or voice any concerns when you see one of us or you are near the office.

Don Nason, Bridgewater Police Chief

## COMMUNITY FOREST FIRE WARDEN AND STATE FOREST RANGER REPORT

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests and Lands cooperate and coordinate to reduce the risk of wildland fires in New Hampshire. To help us assist you, contact your local Forest Fire Warden or Fire Department to find out if a permit is required before doing ALL outside burning. Fire permits are mandatory for any open burning unless the ground where the burning is to be done (and surrounding areas) is completely covered with snow. Violations of RSA 227-L:17, the fire permit law and other burning laws of the State of New Hampshire are misdemeanors punishable by fines up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs. Open burning is a privilege, **NOT** a right. Help us to protect you and our forest resource! Build small brush piles that can be quickly burned and extinguished.

New Hampshire experienced over 940 wildland fires in 2001. Most of the fires were human caused. Due to dry conditions fires spread quickly impacting more than 20 structures. Homeowners can help protect their homes by maintaining adequate green space around the house and make sure that the house number is correct and visible. **Only You Can Prevent Wildland Fires.** Contact your local Fire Department or the New Hampshire Division of Forests and Lands website at [www.nhdf.com](http://www.nhdf.com) or call 271-2217 for wildland fire safety information.

NEWFOUND AREA NURSING ASSOCIATION

**Mission Statement:** To promote health and provide therapeutic services for individuals and families in our community  
Our services and programs are individualized to maximize outcomes and enhance quality of life in the community

2001 Summary of Services

Home Care Program:

Skilled Nursing	3,491
Physical Therapy	730
Occupational Therapy	227
Speech Therapy	26
Home Health Aide	5,675
Homemaker	891
Supervisory	364
Medical Social Worker	10
<b>Total</b>	<b>11,414</b>

Outreach Programs:

**Well Child Clinics.** Monthly clinics for physicals, immunizations, nutrition and health education, and referral for 45 children

**School Immunization.** 17

**Flu Vaccines:** 455

**Pneumonia Vaccines:** 17

Newfound Area Parental Support Programs:

**Tots Play Time (Summer)** Sixteen weeks 12 parents and children couplets attended (468 contacts)

**Parent Mentor Visits:** Home visits by 8 trained volunteers to support new parents in their homes

**Parent/Infant Support Group.** Met weekly for 24 weeks (60 contacts)

**Active Parenting Training.** Three courses, each six weeks of parenting and life skills (120 contacts)

**Newborn Visits.** Home visits by a Registered Nurse to assess 24 infant/mother couplets, provide education, referral and gift bags

**Quarterly informational packets** to 102 parents of infants & small children (408 contacts).

Other Community Offerings:

**Hypertension Screenings:** 50 clinics, 216 contacts

**Foot Care Clinics:** 50 clinics, 75 contacts

**Mental Health for Homebound Elders (MHHE)** 124 visits to homebound seniors to assess them for depression and anxiety, education and referral

**Friendly Visitor Program.** 14 trained volunteers visit isolated and depressed seniors in their homes (part of the MHHE program)

**Hospice Volunteers.** 13 trained Hospice volunteers provide support for ill and dying clients and their families (320 hours)

**Lab Services.** Blood draws on homebound individuals

Newfound Area Nursing Association is pleased to offer quality home care and supportive services to area residents. 2001 has been a difficult year for the Newfound Area Nursing Association due to changes in the Medicare Prospective Payment System, major problems with financial software, and short staffing. Although nationally there is a shortage of nurses, we are proud to say that NANA has never denied service to anyone for that reason. The staff, volunteers and Board work very hard to meet the health care needs of those in our community. Plans for 2002 include fully implementing new clinical and financial packages and further developing the home care program. Beginning in January 2002, the clinical staff will use Palm PCs to enter client visit information. We are looking forward to a healthy and prosperous new year in 2002.

Respectfully submitted,

Jane D'Ovidio  
Executive Director

### Annual Report – School Space Needs Committee

Shortly after his appointment as Superintendent of Schools, Dr. John Graziano contacted the Boards of Selectmen in each of the communities within the School District. He invited their participation, either personally or by representatives, in a process aimed at examining the issue of school space within all schools in the district. Others were also invited to take part with the intention of making the process as open and broadly based as possible. A dozen people attended the first meeting on September 19, 2001.

With the goal of developing a long-range facilities master plan for the entire district, the Superintendent identified the following tasks for the Committee: 1. Develop a building needs plan for the whole district. 2. Develop new strategies for informing the public. 3. Identify strategies and choices. 4. Identify a team. He asked the Committee to “create a comprehensive assessment of the space needs in SAU #4” and make recommendations about resolving those needs to him. With that purpose in mind, the Committee visited each school during the school day to observe the effect of school space issues on students and teachers. The Committee also reviewed enrollment projections and practices, population trends in our communities, energy and utility costs, maintenance needs and long-term debt schedules. They asked that appropriate professionals complete life safety inspections and specific capacity reports for each school. They reported their findings at that point in a report to the School Board on January 14<sup>th</sup>. Copies of that report are available at the Superintendent’s office.

While many more issues were identified than are listed here, the Committee specifically noted a shortage of elementary classrooms for both the current and projected enrollment. Multi-age/grade groupings are currently used or planned for the future due to classroom shortages, not program goals. Many spaces used for special education instruction and other special services are educationally unsound and not appropriate for their purposes. Space limitations do not permit the best instruction for elementary students in such programs as library services, physical education, technology, art and music. There are also significant space effects on guidance and nursing services. There are long-delayed specific maintenance issues at both the Middle and High Schools.

The Committee is now engaged in establishing a priority list of the needs identified thus far as an essential component in the development of the long-range facility master plan. We have been asked to present such a plan for the Superintendent’s consideration prior to his making any recommendations about addressing school facility needs to the School Board. Attempting to coordinate the timing of any plan developed with the completion of long-term debt payments for the High School, we hope to have the first phase of the long-term plan available for consideration at the next Annual School District Meeting in 2003. With the goal of providing excellent instructional school spaces for all of our students, we invite your comments, reactions and suggestions. We also invite those interested to join us in this important work for the School District.

Respectfully Submitted,  
George Blaisdell, Chairman
